Nationality: Indian

Summary

- 3.9 years of IT experience in development of web-based applications as well as core java application.
- Experiences in Object Oriented Analysis, Design and Development, Agile Framework, Web API, Rest/Micro bases Services, Html, CSS ,& javaScript. Analyzing user requirement envisioning system feature functionality.
- Developing Application using SQL DATABASES ,Schema, SQL Queries and also familiar with GIT and Version Control system, Skilled in data SQL server or Oracle, SQL Queries, Query Optimization.
- Experience in developing Web/Enterprise based applications using Java/J2EE, Spring MVC.
- Excellent Communication and Verbal Skills.
- Strong in Analytical, Logical Skills and Team Leading Skills
- Contributing to team Meetings, Troubleshooting development and production problem across multiple environments
- Ability to effectively self-manage during independent projects as well as collaborate as part of a productive team.
- Possess strong functional & result -oriented skills and commitment to work with good learning attitude. Can easily adapt to any technology and tools and learn them very quickly.

Technical Skills

| | |
|------------------------------------|-------------------------------------|
| Operating Systems | Windows 10 & Linux |
| Languages | Java 7 and 8 |
| Web Technology | HTML, CSS, JavaScript |
| Frameworks | Spring 4.X, Angular 7 |
| ORM Technology | JPA |
| Web Services | REST & Microservices |
| Databases | Oracle SQL Developer |
| Application Server | Web Logic 10.3.6, JBOSS EAP 6 and 7 |
| Continuous Integration tool | Jenkins Build tool |
| Code coverage | Sonar code coverage tool |
| Versioning Tools | Bit bucket |
| Mocking Framework | Power-Mockito 1.7 |

Professional Experience

Currently Working as Associate (FSE) at **Cognizant Technology Solution** from 26-May-2016 to till date.

Highlight: Currently working on **ELK Implementation** on AWS console and Triggering an Error mail Notification system. Engineer with strong experience in setting up for large volume of Business data.

Cognizant Technology Solution Experience

Project 1 : IPLUS (Incentive Cash Offering)

Duration : Sep 2019 to Till date

Team Size : 8

Responsibilities:

- ☐ Member of Scrum team in an agile environment with life-cycle of 9 days per Sprint, Closely working with testers and the product Owner.
- ☐ Enhanced and Optimized logistics management services.
- ☐ Actively involved in developing complex modules and common services.
- ☐ Developed and present findings & solutions to the product owners.
- ☐ Worked to solve problem using the latest in cloud technologies(ELK)
- ☐ Documented all enhancement in confluence for future references.

Environment/tools: Spring boot 2.0.4, Maven 3+ , Oracle SQL Developer 4.1.3, JDK 1.8, Jboss, Jenkins, Winscp, putty, Jfrog ,Bitbucket , Kinesis Agent ,aws, Elastic search.

Project 2:

Project : IPLUS (Reorg Legacy Code and Integrated With DevOps for Continuous Integration)

Duration : May 2019 to Sep 2019

Team Size : 3

Responsibilities:

- ☐ IPLUS Bit bucket repo should be work independently based on **microservice architecture**
- ☐ During separation of each repo , bit bucket history should be maintained
- ☐ Each domain repo should able to pass all Jenkins stages and publish that jar to jfrog repo
- ☐ Used JIRA to report and fix the Defects for the application.
- ☐ Worked closely with the DevOps team and other team members to form a team effort in development when have dependencies.
- ☐ Documented all modification in confluence as well for future references.

Environment/tools: Spring Maven 3.5+, Oracle SQL Developer 4.1.3, JDK 1.8, Jboss, Jenkins, Winscp, putty, Jfrog .

Project 3:

Project : IPLUS (JBoss Migration 6.x to 7.x)

Duration : Jan 2019 to Mar 2019

Team Size : 2

Responsibilities:

- ☐ Configured domain.xml configuration file for all environment
- ☐ Identified and merge all queues into configuration file
- ☐ Updated socket binding configuration

- Active MQ and changed OLTP connection for all environment
- All modifications updated in JIRA as well as Confluence.

Project 4

Project : Incentive Plus(IPLUS)

Duration : Dec 2018 to July 2018

Team Size : 9

- Developed and implemented Web applications using Java/J2EE Technologies including Core Java, JDBC, Spring and JPA.
- Involved in analysis, and design in development Under **Agile** methodology
- Involved in creating the project war, executable jar file and deploy in Web Logic server.
- Used JIRA to report and fix the Defects for the application.
- Also implemented UI Functionality with the help of angular 7
- Integrated with sonar to fix critical or major issues.

Project 5

Project : NAPO DS

Duration : Dec 2017 to July 2018

Team Size : 8

Responsibilities:

- Developing and implementing Web applications using Java/J2EE Technologies including Core Java, JDBC, Spring and Hibernate.
- Involved in analysis, and design in development Under **Agile** methodology
- Involved in creating the project war, executable jar file and deploy in Web Logic server.
- Developed and debugged the application using Eclipse IDE
- Used JIRA to report and fix the Defects for the application.
- Worked closely with project managers and other team members to form a team effort in development when have dependencies.
- Prepared in Junit Test Cases Using Power Mockito and achieved 90%+code coverage
- Integrated sonar + corbetura to track coverage and issue.

Education

Asansol engineering college, Maulana Abul Kalam Azad University of Technology West Bengal.

Degree: B.tech- Electronics & Instrumentation.

Passing year: 2015.

Personal details

Date of birth: 27^h feb 1994

Gender: Male

Marital status: Unmarried

Father's Name: Hari Shankar Prasad

Language: Hindi, English.

Interest

Travelling, Gaming, Movies.

Place: CHENNAI
